2026 COLLECTION

Nocturna

CHAPTER VI

CHAPTER VI

Nocturna explores contrast and duality, where every silhouette glows against a deep black backdrop. A collection of expressive minimalism, blending softness with structure, and tradition with reinvention. Asymmetrical necklines, strapless designs, and delicate scarves meet refined capes and detachable sleeves, offering a personalised approach to modern bridal styling.

Nocturna is a chapter of quiet confidence, where couture craftsmanship enhances the female form and each bride finds her own reflection.
